
MAPETROL

HIDROL HV 68

HIDROL HV 68 is high quality hydraulic oil with high viscosity index (IV). Formulated with high-quality mineral oils and a stable system of additives. The production technology is based on the latest generation additive of zinc-based additives and additives resistant to slipping to maintain oil viscosity over a wide temperature range even during prolonged use. They have a low pour point which allows them to be used in the construction, agricultural and mining mechanization throughout the year. They are also used as a hydraulic fluid in ship's hydraulic systems.

SPECIFICATIONS

- SRPS ISO 6743-4 (L-HV)/ISO 11158 (L-HV)
- DENISON HF-0/HF-2
- SPERY VICKERS M-2950-S/I-286-S
- DIN 51524-3 (HVLP)
- AFNOR NF E 48-603 (HV)
