
MAPETROL

SLIDE WAY OIL 46

Slide way is mineral based oil of premium quality, designed for the lubrication of horizontal and vertical sliding rails. Recommended for lubrication of circular and linear tracking systems, hydraulic and slide elements in machine tools and related industrial systems. They provide exceptional control and grip with either a horizontal or vertical surface, good protection against rust and corrosion, allowing even movement in the case of low speed.

SPECIFICATIONS

- SRPS ISO 6743-4 (L-HG)/ISO 6743-13 (L-GA)/ISO 11158 (L - HG)/ISO 19378(GA)
