

## Technical Data for:

### MAPETROL GASOLINE ADDITIVE

#### Description:

Mapetrol Gasoline Additive serves as a versatile gasoline additive designed to cleanse the entire fuel system, encompassing valves, the combustion chamber, and injectors.

#### Benefits:

- Purges injectors, valves and the combustion chamber
- Reduces emission of hazardous exhaust gases
- Renews power and performance
- Guards against corrosion
- Improves combustion
- Reduces petrol consumption
- Eliminates rough idling, hesitation or knocking

#### Usage:

Suitable for all gasoline engines operating on either leaded or unleaded gasoline. No adverse effects on catalytic converters or turbochargers.

#### Instructions:

- Each bottle is suitable for treating a fuel quantity ranging from 40 to 60 liters of gasoline
- Before adding gasoline empty the contents of a bottle into the fuel tank
- It is suggested to employ one bottle after every 2000 km traveled
- For sportive use it is suggested to employ one bottle for each tank filling

#### Technical specification:

|                              |                |
|------------------------------|----------------|
| Colour                       | CLEAR          |
| Smell                        | CHARACTERISTIC |
| Flash point [°C]             | > 61           |
| Density [g/cm <sup>3</sup> ] | 0.795          |
