

**Description:**

Mapetrol ATF D II is versatile all-season mineral-based ATF designed for automatic gearboxes, hydraulic power steering, cab tilt mechanisms, hydraulic clutches, and other hydraulic systems, including heavy-duty applications in trucks and off-road vehicles. It ensures smooth automatic gearbox operation, minimal wear, extended transmission life, and improved fuel efficiency, meeting GM group requirements. Recommended for vehicles requiring ATF Type Dexron-IID quality, compatible with similar-quality brands.

**Benefits:**

- High-quality low-viscosity base with additives for consistent performance across a wide temperature range
- Advanced additives provide anti-friction properties for gear couplings, ensuring smooth transmission shifts and extended component life
- Enhanced thermal-oxidative stability reduces sludge formation and lowers maintenance costs
- Protects metal parts from corrosion, whether in operation or at rest
- Resists aeration and foam formation
- Compatible with sealing materials, preventing swelling and leaks
- Reduces noise

**Specifications and approvals:**

GM Dexron II D

ALLISON C4

CATERPILLAR TO-2

MAN 339 V1/Z1

MB 236.5/236.7

RENK

VOITH H 55.6335.xx (G607)

ZF TE-ML 03D/04D/11A/14A/17C

**Typical characteristics:**

Test	Method	Unit	Results
Density at 15 °C	ASTM D 4052	[g/cm <sup>3</sup> ]	0.85
Kinematic viscosity at 40 °C	ASTM D 445	[mm <sup>2</sup> /s]	40.7
Kinematic viscosity at 100 °C	ASTM D 445	[mm <sup>2</sup> /s]	7.0
Viscosity index	ASTM D 2270	-	133
Flash Point	ASTM D 92	[°C]	216
Pour point	ASTM D 97	[°C]	-46

**Storage:**

Please store in a well-ventilated, dry, and cool area, away from direct sunlight and out of reach of children. Additional information can be found in the safety data sheet.
