

MAPETROL DIESEL ADDITIVE**Description:**

Mapetrol Diesel Additive serves as a versatile diesel additive, purifying the entire fuel system, boosting the cetane number and restoring power and performance. Contains a lubricity additive provide lubrication to the diesel fuel pump when using low-sulfur fuel. It is applicable to all diesel engines, including those equipped with common rail technology, whether turbocharged or not.

Benefits:

- Purges the complete fuel system, encompassing injectors
- Reinstates power and operational efficiency
- Enhances combustion and curtails fuel consumption
- Elevates the cetane number
- Safeguards the fuel system from corrosion
- Provides lubrication to the diesel fuel pump
- Lessens the discharge of harmful exhaust emissions

Instructions:

- Pour the recommended amount from the bottle into your fuel tank before refueling
- Each bottle treats 40-60 liters of diesel
- Use one bottle every 2000 km
- For sportive use, add a bottle with each tank refill

Technical specification:

Colour	CLEAR
Smell	CHARACTERISTIC
Flash point [°C]	> 61
Density [g/cm ³]	0.806
