

Technical Data for:

MAPETROL SYNTHETIC CHAIN LUBE

Description:

Mapetrol Synthetic Chain Lube, a spray-on chain lubricant, combines oil and special additives to combat corrosion. While its primary function is to lubricate chains, it goes a step further by offering comprehensive environmental protection. It operates year-round to keep bicycles and motorcycles running smoothly, safeguarding them against wear, corrosion, and the annoyance of chain adhesion, all thanks to its exceptional lubricating qualities.

Benefits:

- Wear and corrosion protection
- Strongly sticks to metal surfaces
- Waterproof
- Reduces friction
- Remains stable when exposed to oxidation
- Works well across a wide temperature range
- Won't damage paint or lacquer
- Solvent-free

Instructions:

- Clean the chain surface using a chain cleaner to remove old lubricant residue
- Shake the spray can for 2 minutes, then apply it to your bicycle or motorcycle chain
- Adapt the application frequency to your specific usage
- Store the product in its original packaging between -5°C and +30°C for a 24-month shelf life

Storage:

Please store in a well-ventilated, dry, and cool area, away from direct sunlight and out of reach of children. Additional information can be found in the safety data sheet.
