About Us

Engineered for Precision. Chosen by Experts.

Since 1922, Mapetrol has represented more than just oil — it has symbolized trust, durability, and a deep commitment to excellence. With over 100 years of continuous innovation, we are among the few brands that can truly say: we know engines inside out.

Our additives are not simply fuel treatments. They are a culmination of decades of scientific research, in-house development, and close collaboration with top-tier automotive professionals. Built on the same foundation that powers our lubricants, Mapetrol Additives deliver targeted performance enhancements — for vehicles that demand more.

Whether you're navigating city traffic, enduring harsh winters, towing heavy loads, or pushing limits on the track, our formulations are designed to protect, clean, and unlock your engine's true potential.

We don't follow trends. We set them.

Why choose Mapetrol Additives?

- Developed and tested in our in-house laboratory.
- Proven performance under extreme temperatures and load conditions.
- Compatible with the latest engine technologies, including DPF, GPF, and hybrid systems.
- Trusted by OEM manufacturers, performance garages, and industry professionals across Europe and beyond.
- Extended drain intervals, reduced wear, lower emissions, and smoother engine response.
- Proudly made in the EU — with precision, passion, and purpose.

Engine Revival. Performance Reborn.

There are engines that feel beyond repair — low on power, clogged with deposits, rough to start. But sometimes, all it takes is a precision-engineered additive to bring them back. Mapetrol's high-detergent formulas and engine flushes are made to dissolve sludge, clean vital components, and restore internal circulation. It's a deep detox that breathes new life into tired engines — no disassembly required.

PRO ADDITIVES

CERA PRO

**CERAMIC WEAR PROTECTION |
50.000 KM |
ADD TO MOTOR OIL |**

Mapetrol Cera Pro is a high-performance engine oil additive designed to reduce friction, minimize wear, and enhance overall engine protection. It prevents direct metal-to-metal contact, reduces noise, and improves oil stability. Compatible with DPF, turbochargers, catalytic converters, and fine filters, it ensures optimal engine efficiency and longevity. Usage: Shake well before use. Add 300 ml to up to 5 liters of motor oil.

**Ceramic Wear
Protection
50.000 km**

ADD TO MOTOR OIL

DPF CLEANER PRO

**REGENERATION AND CLEANING |
FOR DPF FILTERS |
ADD TO FUEL TANK |**

Mapetrol DPF Cleaner PRO boosts your diesel engine's performance by regenerating the diesel particulate filter (DPF), lowering the soot ignition temperature, and cleaning essential engine parts. Perfect for both passenger cars and heavy-duty vehicles, it helps reduce emissions and keeps your engine running smoothly. To use, simply pour the entire 300 ml bottle into your fuel tank before filling up with diesel; it treats 40–60 liters of fuel.

**Regeneration
and Cleaning
for DPF filters**

ADD TO FUEL TANK

Liquid Armor. Molecular Precision.

Some of the most advanced oil additives — enhanced with compounds like boron or molybdenum — form a microscopic layer of protection on internal metal surfaces. This invisible shield reduces metal-to-metal contact, minimizes friction and wear, and extends engine life even under extreme pressure and heat. It's a suit of armor your engine wears from within — designed at the molecular level to defend performance, longevity, and reliability.

DIESEL ADDITIVES

ANTI-FREEZE DIESEL

*PREVENTS FREEZING |
PROTECTS AGAINST RUST |
IMPROVES COLD FLOW |*

Mapetrol Anti-Freeze Diesel enhances the capacity of diesel to flow smoothly in colder conditions and safeguards it against wear, rust, corrosion, the formation of crystals or freezing. Applicable to all diesel engines, turbocharged or not. Add contents before refueling. It is suggested to use one bottle for each tank filling.

DIESEL ADDITIVE

*CLEANS FUEL SYSTEM |
BOOSTS CETANE NUMBER |
RESTORES ENGINE POWER |*

Mapetrol Diesel Additive is a versatile diesel additive that cleans the fuel system, increases cetane number, and restores power and performance. Add contents before refueling. Each bottle treats 40-60 liters of diesel. Use one bottle every 2000 km for regular driving or one bottle per tank for sportive driving.

Mapetrol Injector Cleaner Diesel removes carbon deposits from injectors, enhancing combustion and cutting fuel consumption in all diesel engines, turbocharged or not. Add contents before refueling. Each bottle treats 40-60 liters of diesel. Use one bottle every 2000 km for regular use, or one bottle per tank for sportive driving.

DPF CLEANER

*CLEANS RUST AND SLUDGE |
RESTORES ENGINE EFFICIENCY |
SAFE FOR ALL ENGINES |*

Mapetrol DPF Cleaner enhances your diesel engine's efficiency by regenerating the DPF, lowering the soot ignition temperature, and cleaning key engine components, leading to reduced emissions and better combustion. To use, just pour the full 300 ml bottle into your fuel tank before refueling; it treats 40-60 liters of diesel fuel.

Tested on track, approved by drivers.

In professional racing, every detail matters — including what goes into the fuel. Mapetrol's performance additives are inspired by motorsport demands and tailored for daily drivers. Whether it's optimizing combustion, cleaning injectors, or boosting octane, these products are engineered to deliver responsiveness when you need it most.

GASOLINE ADDITIVES

GASOLINE ADDITIVE

*CLEANS FUEL INJECTORS |
INCREASES ENGINE EFFICIENCY |
REDUCES FUEL CONSUMPTION |*

Mapetrol Gasoline Additive is a versatile gasoline additive that cleans the fuel system, encompassing valves, the combustion chamber, and injectors. Add contents before refueling. Each bottle treats 40-60 liters of gasoline. Use one bottle every 2000 km for regular driving or one bottle per tank for sportive driving.

VALVE CLEANER GASOLINE

*KEEPS YOUR ENGINE SMOOTH |
BOOSTS FUEL EFFICIENCY |
PROLONGS ENGINE LIFE |*

Mapetrol Valve Cleaner Gasoline is suitable for all gasoline engines with port fuel injection or carburettor, effectively purifies valves, valve seats and the combustion chamber. Add contents before refueling. Each bottle treats 40-60 liters of gasoline. Use one bottle every 2000 km for regular driving or one bottle per tank for sportive driving.

OCTANE BOOSTER GASOLINE

*INCREASES OCTANE NUMBER |
IMPROVES COMBUSTION |
PREVENTS ENGINE KNOCK |*

Mapetrol Octane Booster Gasoline is suitable for all gasoline engines with injection or carburettor, increases the octane rating of gasoline by 2 - 5 points, enhancing combustion efficiency and preventing engine knock. It restores power and operational effectiveness, purifying the fuel intake system. Add contents before refueling and use it immediately after opening. Each bottle treats 40-60 liters of gasoline. Use one bottle for each tank filling.

CATALYST CLEANER GASOLINE

*CLEANS CATALYTIC CONVERTER |
REDUCES EMISSIONS |
IMPROVES FUEL EFFICIENCY |*

Mapetrol Catalyst Cleaner Gasoline is suitable for all gasoline engines with a catalytic converter, reduces accumulation of carbon residues and deposits. It cleans the entire fuel system, including injectors, valves, and pistons. The outcome is enhanced combustion, leading to decreased emissions and safeguarding the integrity of the catalytic converter. Add contents before refueling. Each bottle treats 40-60 liters of gasoline. Use one bottle every 5000 km.

The Boost Behind the Power.

Oil additives with detergents and dispersants don't just clean — they transform. Mapetrol's advanced formulations help dissolve gunk, varnish, and sludge from critical engine parts while stabilizing oil performance. It's like a performance shot for your engine — revitalizing its flow, reducing friction, and keeping things smooth under pressure.

ADDITIVES

OIL ADDITIVE BOOSTER

*REDUCES ENGINE WEAR |
ENHANCES OIL PERFORMANCE |
SUITABLE FOR ALL ENGINES |*

Mapetrol Oil Additive Booster improves oil performance, reduces friction and wear, enhances viscosity, and neutralizes acids for gasoline, diesel, and LPG engines, turbocharged or not. It can be mixed with any commercial engine oil, won't clog filters or harm catalytic converters. Add entire bottle to warm oil then run the engine for 5-10 minutes. Treats 4-6 liters of oil per bottle.

ENGINE FLUSH

*CLEANS RUST AND SLUDGE |
RESTORES ENGINE EFFICIENCY |
SAFE FOR ALL ENGINES |*

Mapetrol Engine Flush gives your engine a fresh start by removing rust, sludge, gum, and varnish from diesel, gasoline, and LPG engines, ensuring cleaner and more efficient performance. Compatible with all Mapetrol motor oils, it's easy to use: before an oil change, pour the entire 300 ml bottle into your warm engine's crankcase, run the engine for 15 minutes alternating between low and high RPMs, then drain the oil, replace the oil filter, and refill with fresh Mapetrol motor oil. It treats 4-6 liters of motor oil.

Performance Doesn't End with the Engine.

True vehicle care goes beyond combustion. It lives in the details — the moving parts, the surfaces, the systems that support performance behind the scenes. Mapetrol Service Products are designed with the same engineering mindset as our additives: maximum functionality, tested reliability, and precision in every spray, drop, or treatment. From chain lubrication to brake cleaning, these products help maintain the mechanical harmony that keeps vehicles operating at their best — safely, cleanly, and efficiently.

SERVICE PRODUCTS

KARTING CHAIN LUBE WS2+

*REDUCING FRICTION |
EXCELLENT LUBRICATION |
SUPERIOR PROTECTION |*

Mapetrol Karting Chain Lube WS2+ is a high-viscosity, WS2+ fortified spray lubricant designed for karting. It offers superior wear, oxidation, and corrosion resistance, with a friction-reducing WS2+ additive for minimal wear and optimal efficiency under high loads. Engineered for karting's demands, it provides lasting protection and consistent performance in tough conditions.

BRAKE CLEANER 360°

*DEGREASES INSTANTLY |
HIGH PRESSURE |
360° SPRAY NOZZLE |*

Mapetrol Brake Cleaner 360° delivers fast, powerful cleaning from any angle. The 360° spray nozzle reaches tough spots, while the quick-dry formula removes grease, oil, and dirt with zero residue. How to use: Spray evenly from any angle, let it dry, repeat if needed.

DRY CHAIN LUBE

*PREVENTS CORROSION |
EXCELLENT LUBRICATION |
LONG SERVICE LIFE |*

Mapetrol Dry Chain Lube is a dry chain lubricant in spray form, made from special oil that protects the chain from wear, corrosion, and environmental influences. It is used for bicycles and motorcycles, creating a durable protective coating, reducing friction, and not damaging the paint. Clean the chain before application, shake the spray for 2 min and spray evenly on the surface. Use regularly for optimal protection.

SYNTHETIC CHAIN LUBE

*PREVENTS CORROSION |
EXCELLENT LUBRICATION |
LONG SERVICE LIFE |*

Mapetrol Synthetic Chain Lube, a spray-on chain lubricant, combines oil and special additives to combat corrosion. While its primary function is to lubricate chains, it goes a step further by offering comprehensive environmental protection. It operates year-round to keep bicycles and motorcycles running smoothly, safeguarding them against wear, corrosion, and the annoyance of chain adhesion, all thanks to its exceptional lubricating qualities.

Behind the Formula

In-House Technology. Real-World Results.

What makes Mapetrol Additives different isn't just what's in the bottle — it's how we create it.

We combine decades of lubricant chemistry with real-time feedback from workshops, OEM engineers, and motorsport teams. The result? Additives that respond to real engine challenges — sludge buildup, injector fouling, cold start wear, DPF clogging — with surgical precision.

Our testing goes beyond lab conditions. We simulate daily driving, harsh climates, long-haul operations, and high-rev stress environments to ensure our additives don't just meet standards — they exceed expectations.

Driven by Passion

From Maribor to the World — One Engine at a Time.

At Mapetrol, we know that vehicles are more than machines. They're tools of freedom, pride, adrenaline — and sometimes, identity.

That's why we put our heart into every drop. Whether it's a family SUV, a long-haul truck, a classic roadster, or a professional race car, Mapetrol Additives are made to enhance every engine's potential. Our customers are garage owners, weekend racers, mechanics, and drivers who trust us to deliver performance when it matters. From the winding roads of the Dolomites to the heat of the African deserts, Mapetrol Additives keep engines running cleaner, longer, and stronger.

We are proud to be based in Maribor, Slovenia — but our reach extends across continents. With a growing network of partners, distributors, and fans, we're building something bigger than a brand. We're building a movement powered by engineering, design, and passion.
